MANUFACTURING

MATERIAL COMPOSITION

LDPE (Low density Polyethylene)
HDPE (High density Polyethylene)
PP (Polypropylene)

1 MATERIAL
Recycling today is still a choice, tomorrow it will be a necessity. Each board contains approx 520 plastic bottles.

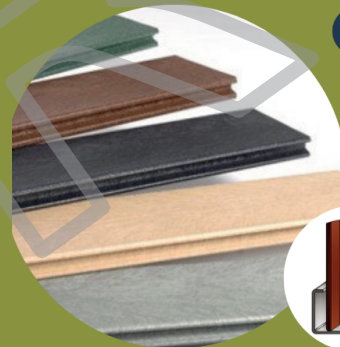

2 PREPERATION
Raw materials are mixed with dy and other additives to colour, improve and strengthen the product.

3 QUALITY CONTROL
Automated, continuous quality control using the world's leading supplier of machine vision systems.

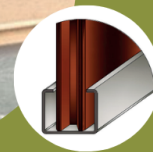

4 PACKAGING
Boards are carefully packed onto pallets and securely strapped and wrapped for ease of transport.

5 COLOURS

- Green *
- Brown
- Black
- Beige *
- Grey

typical installation into C-Profile

*selected colours are available by special order only and may attract longer manufacturing time/s
